Subject: RE: Inquiry Regarding Exide and Number of Homes Remediated in Maywood removed.txt

Hi Brent,

Thank you for getting back to me so quickly. I did reach out to my congressional liaison with DTSC, Josh Tooker, as well as Mary Sue. Unfortunately, no one was able to give me the stats specific to Maywood. I was hoping that perhaps DTSC may have reported them to the EPA at some point, but it seems like DTSC may not have this data prepared. In any case, I appreciate your prompt response and attention to my voicemail.

Best wishes,

Talía León

Talia -

Thank you for your voicemail and sorry I missed your call yesterday. I leave the office at 4:30pm to catch a vanpool and your call came in at 4:35pm. With regard to your inquiry about a Maywood City Council Member participating in a meeting in Sacramento today and their interest in obtaining the numbers of homes specifically in Maywood near the Exide facility that have been remediated by DTSC, unfortunately, I do not have those numbers to provide to you, however, I am providing a link to the DTSC's website dedicated to Exide and perhaps you can reach out to one of DTSC's contacts to obtain Maywood specific information. You may wish to reach out to DTSC's Public Participation Specialist, Mary Sue Maurer, regarding the numbers of homes specifically in Maywood that have been remediated. You can reach Mary Sue Maurer, at 1-818-717-6566, or via e-mail at mary.maurer@dtsc.ca.gov. I am copying her on this message to make her aware of your inquiry.

Regards,

Brent Maier

Congressional Liaison

U.S. Environmental Protection Agency, Region IX

Information from DTSC’s website:

UPDATE

**Exide Public Hearing Date Rescheduled
to Wednesday, February 3 from 6:00-9:00pm**

The Department of Toxic Substances Control (DTSC) Permitting Division re-notices our invitation for you to comment at a Public Hearing on the Exide Technologies Battery Recycling Facility's (Exide's) draft Closure Plan for the facility located at 2700 South Indiana Street in Vernon, CA and comment on DTSC's Draft Environmental Impact Report (DEIR) which identifies the potential environmental impacts associated with the proposed activities described in the draft Closure Plan. Approval of a Closure Plan would begin cleanup and deconstruction of buildings at the facility.

Earlier this month, DTSC mailed out a public notice announcing the start of a 60-days comment period for the draft Closure Plan and DEIR which began December 8, 2015 and ends February 12, 2016. **DTSC has rescheduled the public hearing for February 3, 2016**, at the Commerce City Council Chambers located at 2535 Commerce Way in Commerce, CA, from 6:00 pm to 9:00 pm. At this hearing, you can provide oral or written comments and any supporting data on the draft Closure Plan and DEIR for consideration before DTSC approves the Closure Plan and certifies the Final EIR.
